

# Strobes

**1,000m Depth Rating**

**Hard Anodized Enclosure**

**Acrylic View-port**

**Simple, Robust & Affordable**

Our Standard strobes are rated to 1,000m. They are programmed manually before being deployed and they can either be tethered to the camera (Master Strobe) or be fitted with a light sensor (Slave Strobe). The core of the strobe is a Sunpak 383 flash with a GN of 120' in air (water equivalent is approximately 35'), an illumination angle of 63 degrees, a recycle time of about 20 seconds at full power, and 12 seconds at half power. Power settings selection choices are: Full, 1/2, 1/4, 1/8, 1/16.

## Specifications

### ***Mechanical***

Depth Rating:	1,000m
Housing Material:	Hard Anodized Aluminum
Window:	Acrylic
Length:	31.1 cm / 12.25 Inch
Body Diameter:	14.3 cm / 5.63 Inch
Weight in Air:	Approx. 6.8 Kg / 15.0 Lbs
Weight in Water:	Approx. 2.7 Kg / 6.0 Lbs

### ***Electrical***

Voltage:	12VDC
Current:	up to 2.0 Amps
Connector:	MCBH-2-MP
Pin-Out:	1 = Ground 2 = Power
